Belmopan. February 8, 2022. 2:55 p.m.

The inaugural visit of Dr. Hyginus “Gene” Leon, President of the Caribbean Development Bank (CDB), to Belize kicked off on February 7, 2022, with a meeting at the Central Bank of Belize.

Hon. Christopher Coye, Minister of State in the Ministry of Finance, Economic Development, and Investment, welcomed the CDB team and expressed appreciation for the relationship and partnership that has existed between Belize and CDB since its inception.

According to the minister, “the Government is working to better position Belize to emerge economically, reflecting a culture of environmental sensitivity and building on that brand.”

President Leon in turn renewed assurances of CDB’s commitment to assist borrowing-member countries in improving the lives of people and securing a sustainable future for the region’s children.

He stated that the government and the bank have an aligned vision, indicating that “as we transition from the pandemic, we must seize the opportunity and create a future the rest of the region and our citizens deserve.” This, he added, was urgent, necessitating immediate, bold and impactful steps.

The discussion included updates on the state of Belize’s economy, developments in the financial sector, potential areas for CDB support, the need for collaboration between the public and private sectors to promote economic expansion, regional integration, and areas for strengthening the relationship between Belize and the CDB.
